This booklet provides a broad overview of the 2017 Central Coast acreage market from Macmasters Beach north to Glenning Valley and west to the M1. As experts in marketing and selling acreage properties, we know it is important to keep a broad view of the market and results in neighbouring suburbs. Acreage buyers are savvy and opportunistic in nature, they have the tools at their fingertips to compare detailed data and will have a wider net when searching for property than that of the mortgage belt suburb-specific buyer. 2017 saw a bite back from local families looking to upgrade onto more land, providing rivalry to the dominance of the Sydney buyer. This, coupled with minimal stock, has seen competition remain strong throughout the year and we expect to see similar strength in the acreage market for 2018.

We hope you enjoy reading this snapshot of acreage sales throughout 2017.
